Software Developer | 01069115579 | Mail | LinkedIn | GitHub

I am a creative and innovative software engineer with a passion for making the world a more unified and connected place. I am proficient in Python and C/C++, and I am eager to use my skills to develop innovative solutions.

EXPERIENCE

JUL 2023-AUG 2023

INTERN SOFTWARE DEVELOPER, MARAKEZ

I worked as an Intern Software Developer at MARAKEZ D5 for the summer of 2023. I was able to help in developing and maintaining software applications for the company's website. I worked with a team of experienced engineers and learned a great deal about software development. I was able to apply my skills in Python and PHP to real-world projects. I also learned about software development methodologies, such as agile development and RAPID. I was able to participate in code reviews, and document software code.
